

TEAM ATHLETE INTEGRITY

Our mission is to eliminate the **Silence in Sport** to build trust back into the system with integrity.

We Build Trust into the Team Culture with Integrity

There is an inherent imbalance of power between a coach and an athlete (doesn't mean abusive) that can often lead to an athlete's inability to speak up. With silence there is no integrity. We work with teams to eliminate the silence out of sport to build and sustain integrity for all stakeholders. The importance of addressing this is it's where injuries are born, either physical, mental or emotional.

At **Team Athlete Integrity**, we provide services programming to help student-athletes enhance their own voices and actions to further develop their personal leadership skills.
